Property description

Between the hills adorned with olive trees, the ancient monuments and the mountain paths stands this traditional, detached house with approx. 167 m² of living space on a fenced plot of 4,750 m².

It is a traditional house, surrounded by olive trees and with visual contact to the sea. It has a distinctive architecture, clear rooms, high ceilings with an exposed wooden roof and has been used exclusively for personal use since it was built.

It consists of a cozy living room with fireplace, a double kitchen (which stands out with its wood paneling), 3 bedrooms (one of which has its own bathroom) and a bathroom.

In the basement (first floor due to the slope of the land) there is a storage room (approx. 42m²) with direct access to the garden.

The house was renovated in 2010 and the windows, oil burner and radiators were replaced.

The boiler room is located in an independent warehouse next to the house.

Access to the house is via an unpaved country road.

The property is mostly fenced in. Inside there is a garage (approx. 35 sqm with electric garage door)

Part of the plot is planted with ornamental plants and paving stones, the rest is planted with olive trees.

A new 3-phase electrical installation with new fuse boxes was installed in 2024 in the house and in the outdoor areas. Painting work is required at these connection points.
