Property description

LEFKADA NYDRI:

Situated in a privileged, elevated location in Perigiali, this complex of two natural-stone houses offers unobstructed panoramic views of the azure Ionian Sea, the surrounding islands, and the mountainous landscape of Lefkada.

The location combines absolute tranquility and privacy with direct access to the attractions in the eastern part of the island and is a rare example of architecture that blends harmoniously with nature.

The properties span a generous area of 6,431 m² and offer comfort and independence. Each villa has a total floor area of 202 m², spread over three levels.

Particular emphasis was placed on functionality and the use of natural materials such as stone and wood. The ground floor features an open-concept living and dining area with large windows that let in plenty of natural light, a kitchen, a bedroom with an en suite bathroom, and a guest restroom.

An interior staircase leads to the first floor, where there are two additional bedrooms, each with its own bathroom and access to balconies offering panoramic views.

The 75 m² basement provides practical storage space and an entertainment room.

The outdoor design is geared toward hospitality and relaxation: Each residential unit features its own 70 m² swimming pool and landscaped green spaces with several living and dining areas. A communal tennis court rounds out the amenities.
