Location

The villa's location is equally impressive, with a south-facing aspect and unobstructed panoramic views of the sea and the Messinian Oinousses Islands.

The villa is close to beaches, supermarkets and restaurants and offers easy access to everything you need.

The neighborhood is particularly quiet, making it ideal for families and couples.

Property description

Property in Avlona, in an excellent location, just 1 km from the sea and the beach, with good access to the city center, restaurants, a supermarket, a school, the town square, a church, and the market.

This exceptional property, with a total area of 1,900 m², spans two levels (ground floor and first floor) and is situated on a beautifully landscaped 10,000 m² lot.

The size of the building and the property offers significant development potential and makes it an extremely attractive investment in the tourism sector. The hotel was built in 2000 and features 25 rooms and 25 bathrooms.

Its current condition is described as very good. It is particularly noteworthy that the property has never been in operation.

This presents a rare opportunity for the new owner, as it is a large, largely unused hotel complex that can be adapted to meet the modern demands of the tourism market.

With targeted and relatively minor renovations, the property can be transformed into a distinctive and competitive hotel with the potential for a unique identity and significant added value. The 1,900 m² of building area, combined with the vast 10,000 m² lot, offers a rare combination of size, space, and potential.

The property features 15 open parking spaces, a large garden with a lawn and trees, an automatic irrigation system, and comfortable outdoor areaselements that can be utilized and further highlighted in the context of a modern tourism development.

Inside, the property features bright, airy, and sunny rooms, an interior staircase, tile and marble floors, aluminum window frames, and a solar water heating system.

It has an energy performance certificate rated Class E, and its southwest orientation enhances the brightness and sense of open space.

Other data

This is a rare opportunity to acquire a large, previously unused hotel in an excellent location and in very good condition.

The property is suitable for tourism and, with appropriate architectural and functional modernization, can be developed into a unique, high-end hotel that makes optimal use of the complex's impressive size and the expansive natural surroundings of the property.
